# Testimonials

**SHAMIR  
MEDICAL  
CENTER**

*"There was great excitement when we found out that even those with the most severe motor disabilities were able to create music. Their faces reflected their great pleasure."*

Milca Rosen - Director of "Asif"

Asaf Harofe, Shamir Medical Center

**TORONTO**

*"I just used the Arcana with one of our most high need residents (who is partially paralyzed and cognitively disabled) and he was ecstatic during our session. Right away, he understood the purpose of the instrument and though I had to help him press the keys down, he was fully able to strum on his own. We played several songs and he was very pleased with himself."*

Caleb Elies – Music therapist

Kipling Acres – Toronto Canada

*"The world of music instruments is immense, but never before was there a music instrument that's fit for many of those that are not able to play conventional instruments. Arcana is the ultimate solution for closing this gap."*

Hezi Peled - Managing director

Kiryat Tivon Music Center - Conservatorium

*"We found a wonderful opportunity in this unique product for those who want to play standard instruments but are unable to do so due to motor or cognitive disabilities."*

Noa Nitsan - Occupational therapist, director at the Technological Center Beit Issie Shapiro
